EXPERIENCE

GDPA Fasteners | IT Coordinator

Jalandhar | July 2020 - Aug 2021

As an IT Coordinator at GDPA Fasteners, I was responsible for managing and maintaining the company's IT infrastructure and providing technical support to employees.

OM Enterprises | Web Developer

Jalandhar | July 2022 - May 2023

As a Web Developer with Django Framework, I worked on developing web applications using Django, a high-level Python web framework. During my tenure, I was responsible for developing and maintaining web applications and collaborating with designers, developers, and stakeholders to ensure that the applications met business requirements.

SKILLS

Programming Languages: Python, JavaScript, C++
Libraries/Frameworks: Django, React, JQuery, AJAX, Bootstrap
Tools / Platforms: Git & GitHub, Docker
Databases: SQL, MySQL

PROJECTS / OPEN-SOURCE

Kainaat Mahajan | Link

Django, HTML, CSS, Bootstrap, JavaScript, MySQL

I created a Blog Website using the Django framework. The Blog Website is responsive and user-friendly.

The House Of Ruhi

Django, HTML, CSS, Bootstrap, JavaScript, MySQL

I created an e-commerce website with PayPal integration using Django framework. The website is a fully-functional platform that enables users to browse, purchase, and pay for products online.

Reena Spa And Salon

Django, HTML, CSS, Bootstrap, JavaScript, MySQL

I created a responsive and user-friendly spa and salon website with a booking appointment using Django

Two ERP System for Architecture Industry

Django, HTML, CSS, Bootstrap, JavaScript, MySQL

I played a key role in developing an ERP system using Django framework for an architecture firm. The ERP system is designed to integrate all aspects of the firm's operations, including project management, resource allocation, time tracking, billing, and financial management.

Two ERP For Clients

Django, HTML, CSS, Bootstrap, JavaScript, MySQL

I played a key role in developing an ERP system using the Django framework for OM Enterprises and Banarsi Lehnga House. The ERP system is designed to integrate all aspects of the firm's operations, including project management, resource allocation, time tracking and billing, etc
